### DISCLOSURE DECLARATION FOR CE PROGRAM FACULTY/PROVIDERS/PLANNING COMMITTEE

The Division of Pharmacy Professional Development (DPPD) at the University of Wisconsin-Madison School of Pharmacy is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of pharmacy continuing education. Consistent with accreditation standards and our own internal policies, our goal is to insure balance, independence, objectivity, and scientific rigor in all educational programs for which we serve in a sponsorship/provider role. Thus, anyone who is in a position to control the content of an educational activity must disclose to DPPD all relevant financial relationships with any commercial interest. Disclosures will be reviewed by DPPD. Should it be determined that a conflict of interest might exist as a result of a reported financial interest, this will need to be resolved prior to the activity through a follow-up communication to be initiated by DPPD. Further, presenters are required to identify if they will address off-label use of any drugs/devices. The intent of these disclosure policies is not to prevent an individual from contributing to the content of a program; rather, the intent is to allow DPPD to openly identify and resolve factors which may impact program content and, in turn, allow program participants to form their own judgements about the program.

### TERMS AND CONDITIONS

By completing/signing page 2 of this document, the faculty member/provider understands and accepts the following conditions as defined and required by the Division of Pharmacy Professional Development (DPPD):

1. **Disclosure.** A Disclosure Declaration must be completed/submitted not later than 45 days prior to the educational activity. Refusal to submit a Disclosure Declaration will result in disqualification from participation in the program.
2. **Commercial Interest.** Any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. This includes all commercial interests, not just those that might be directly related to the specific program for which a disclosure is signed. Providers of clinical service directly to patients are not commercial interests.
3. **Relevant Financial Relationship.** Financial relationship of any amount occurring within the past 12 months that create a conflict of interest; this includes relevant financial relationships of a spouse or partner.
4. **Fair-Balance.** Presentations must be fair-and-balanced, e.g., objective, free from promotion of a product, device and/or service, and scientifically rigorous.
5. **Unlabeled and Unapproved Uses.** Presenters who provide information in whole or in part related to non-FDA approved uses for drug products and/or devices must clearly acknowledge the unlabeled indications or the investigative nature of the proposed use(s) to the audience. Presenters who plan to discuss non-FDA approved uses for commercial products and/or devices must advise DPPD of their intent by indicating such on the signed disclosure form.
6. **Use of Generic versus Trade Names.** Presenters should use scientific or generic names in referring to products in their lectures or enduring materials. Should it be necessary to use a trade name, then the trade names of all similar products or those within a class should be used.
7. **Commercial Supporter Influence.** Presenters should not be subject to influence from a commercial entity regarding the content of their presentation.
8. **Faculty Honorarium.** A faculty honorarium will be paid only upon successful delivery/completion of the program. Payment of honorarium/expenses to faculty will be made directly by the provider or an educational partner approved by the provider.
